

5 Themes of Geography Project

Brand:

Product Code: 5TOG

Availability: In Stock

Weight: 0.00kg

Dimensions: 0.00cm x 0.00cm x 0.00cm

Price: \$4.99

Short Description

The idea here is to have your students construct a glog to give clues as to where in the world they are hiding. In this project, you'll be using Glogster (<http://edu.glogster.com>) to have students construct their presentations. With their glog, they will use the 5 Themes of Geography (Location, Places, Human-Environment Interaction, Movement, and Regions) as a way of providing other students hints to where they are located.

This compressed file contains 5 Themes of Geography Definitions, Glogster Instructions, Teacher's Guide, Rubric, and sample template for project in both .pdf and .docx formats.
