Short Description

How well do you know the states? This compressed file, when opened, contains a folder. Open the folder and click on the index file (.html5) to get started. This folder can be uploaded to your current website or played as a stand-alone app. The idea is to try to name the state before clicking on it. Once clicked, you will get information on the state and a link to Nat Geo for Kids, where you can learn more about the state. You can use this to help you remember the state or use the helpful link if you are researching a particular state.
