Brand:

Product Code: 65HYP

Availability: In Stock

Weight: 0.00kg

Dimensions: 0.00cm x 0.00cm x 0.00cm

Price: \$0.99

Short Description

HyperStudio is a multi-media creation application that has been around since the early days of the Apple IIGS. It is still a great program to create multi-media projects. After completing the 65 steps in this guide, you'll be well on your way to creating your first stack. Over the years, I've seen students take off with the program after completing these steps.
